

Home Services

Maintenance & Repairs

A tailored home maintenance and repair service program specifically designed for Aged Care Providers and their clients.

Overview

As Australia's population grows, seniors are representing an increasing share of the total population and are choosing to live independently in their own homes for longer.

Understandability with advancing age or disability, it can become increasingly difficult to attend to the maintenance of the home and the installation of equipment required for a liveable environment.

Having worked in residential developments for more than 15 years, Ryland Group saw a growing requirement by seniors for home services that were both accessible and focused on their specific needs. This requirement has quickly becoming a common ask amongst multi-generational households.

To address this, Ryland Group has recently expanded and launched a tailored program for home maintenance and repair services for Aged Care Providers and their clients.

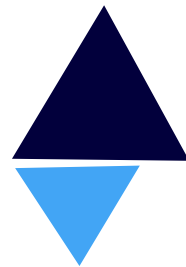

Ryland Group's collective experience and knowledge in residential development, helps it deliver reliable services at a high standard and a competitive cost expected by its customers.

What services do we provide?

Extensive range of services

Our focus is on empowering and supporting the elderly or those with a disability to live comfortably at home by delivering home services to their suit their needs. These services help maintain a safe, habitable and healthy home environment.

* Travel cost may be requested. Conditions apply

Serviced council
areas

Who we work with?

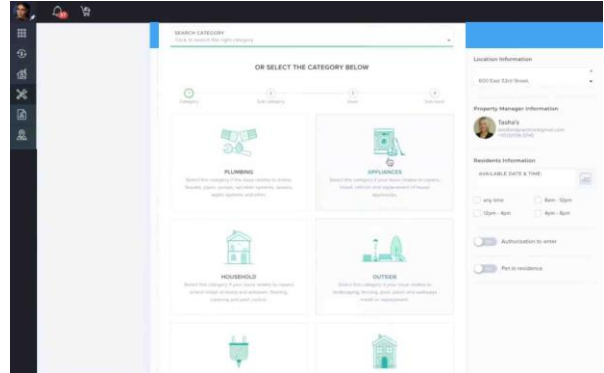

Tailored for Aged Care Providers

We work with service providers to deliver reliable and quality home services specifically customised for their aged care and NDIS clients so they can focus on delivering core services.

We help service providers by tailoring:

- A list of approved services for clients
- Full services details and options
- Annual service packages for clients
- Piece of mind with a fixed pricing schedule*
- An online quoting and invoicing process

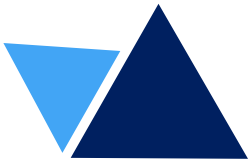

*Only includes standard services where a fixed price can be attributed. Conditions apply

Ryland's Home Services portal gives service providers full visibility of quotes, approvals, schedule works, and progress on all work undertaken.

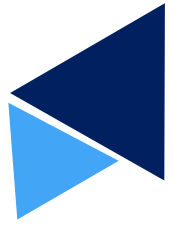

Service providers have full access to dashboard statistics and reporting capabilities so they can gain insights to better serve their client needs.

Note: Portal due for completion in early 2023.
